

PERMANENT LAND STABILIZATION COST EFFECTIVE SOLUTIONS

NASECA-WI Field Seminar

Thursday, September 10, 2009

Hosted by American Excelsior Erosion Lab
Rice Lake, WI

Agenda:

7:30 – 8:00 am	Registration, Continental Breakfast, Networking
8:00 – 8:05 am	Welcome – <i>Gil Layton, Ben Nelson, NASECA-WI</i>
8:05 – 8:45 am	Site Specific Seed Mixes, FHWA-Funded Research on Tools for Design of Permanent Vegetation – <i>Ken Graeve</i>
8:45 – 9:00 am	Preparation, Maintenance, and Inspection of Vegetation – <i>Jay Settersten</i>
9:00 – 10:00 am	Erosion Control on Recreational Trails – <i>Brigit Brown, Larry Salzer, Cory Schneider</i>
10:15 – 10:30 am	Design Software Advances for Permanent EC – <i>Kurt Kelsey</i>
10:30 – 11:15 am	e-Inspections: Digital Inspections for Erosion Control – <i>Greg Halverson</i>
11:15 – 11:45 am	Protecting Your Investment during Hard Economic Times: Permanent EC for Lakes, Rivers, & Flood Plains – <i>Dwayne Stenlund</i>
12:00 – 12:45 pm	Lunch Provided
12:45 – 1:30 pm	Demonstration: Erosion Control Solutions for Recreational Trails and for Crossing Soft Soils
1:30 – 2:45 pm	Demonstration: Selection, Preparation, Planning, Maintenance, and Inspection of Native Vegetation
2:45 – 3:15 pm	Demonstration: Permanent Erosion Control for Channelized Flows
3:15 – 3:45 pm	Demonstration: Vegetated TRM for Permanent Channel Erosion Control
3:45 pm	Drawing for Door Prizes

NASECA Event Host:

**American
Excelsior
Company®**
Earth Science Division

www.curlex.com

American Excelsior Company

John Merthan, CPESC
Territory: WI, MN, IA, SD, ND
Office: 651-436-2643
Cell: 612-819-9567
E-mail: jmerthan@curlex.com

Don Lutyens
Territory: Eastern WI, IL, MI, IN
Office: 630-978-2867
Cell: 630-951-0192
E-mail: dlutyens@curlex.com

American Excelsior Company manufactures a complete line of erosion and sediment control products including Curlex wood fiber blankets, AEC Premier Straw blankets, Sediment Logs, Straw Wattles and Recyclex TRM. We continue to be a leader in erosion and sediment control innovations. Check out www.curlex.com for information on our Products, Applications, a complete Technical Support Library, ErosionLab - our large-scale erosion & sediment control testing laboratory, and ErosionWorks Online - our new analysis & design software program! Other exciting new products that have been introduced over the past couple months include: Curlex CL blankets - Performance of Curlex... Priced Like Straw, Recyclex TRM-V, and Tackler wire staple gun.

SAVE THE DATE: Join us in Madison for the NASECA-WI 7th Annual Conference, February 4-5, 2010.

We value your feedback! Please complete the brief evaluation that will be emailed to you after the event.

NASECA Platinum Level Event Sponsors

The Bruce Company
Amy Sausen
Tel: 608-836-7041 x 379
Email: amy@bruceco.com

The Bruce Company has been building award-winning landscapes for over 50 years. With the Filtrex partnership, we are now creating award winning erosion control solutions for residential and commercial clientele.

EC3
Environmental Consulting Group
Jay Settersten
Tel: 608-497-0955
Email: jsettersten@ec3grp.com

EC3 is committed to providing sustainable solutions that meet specific needs, consistent with the long term interests of the environment. We will achieve this by employing or partnering with highly educated team members that will assist with in-depth research, proactive design, effective implementation and long term support for all of our clients land use needs.

ERO-TEX
Scott Bordeau, CPESC
Tel: 866-437-6839
Cell: 608-712-3839
Email: scottb@ero-tex.net

ERO-TEX is a full-line supplier of erosion/sediment, geotextiles and bioengineering product with six stocking locations throughout Wisconsin and Northern Illinois.

Geo-Synthetics, Inc.
Scott Nelson
Tel: 262-548-5826
Email: scottn@geo-synthetics.com

GSI is nationally known and respected as a full-service distributor, fabricator and installer of geo-synthetics and erosion control materials. What sets us apart is our level of expertise and our custom fabrication capabilities. Plus we carry a wide assortment of geosynthetics to fit virtually any application.

Earth and Road
Derek Hoffman
Tel: 608-592-3355
E-mail: dhoffman@earthandroad.com

Earth and Road provides a complete line of erosion control and geotextile products in Wisconsin. On-staff experienced engineers provide technical assistance to help our customers through difficult projects. We also manufacture polymers for subgrade stabilization, water clarification products, inlet filters, turbidity barriers and silt screens.

ENGINEERED EARTH SYSTEMS
DIVISION OF JKS UNIVERSITIES, INC.
<http://engineeredearthsystems.net>

Engineered Earth Systems
Ted Dzierzbicki
Tel: 847-639-0123
Email: ted@engineeredearthsystems.com

Stormwater management and erosion control products including porous pavement, stormwater storage/treatment, soil reinforcement, geotextiles and self supporting, reusable silt fence. Products can contribute to LEED categories and are environmentally friendly.

NASECA Gold Level Event Sponsors

Construction Fabrics & Materials
Sheila Paulson
Tel: 608-839-8031
Email: sheila@cfmwi.com

CFM is one of the leading suppliers of geotextiles and erosion control products in the Midwest. For more than 20 years, we have provided the construction and landscape industries with phenomenal service, product support and technical knowledge regarding soil reinforcement, geotextiles and erosion control materials.

Tenax Corporation
Larry Salzer
Tel: 320-255-8951
Email: lsalzer@tenax.com

TENAX is a manufacturer of plastic fence, nets, and geosynthetics for a variety of applications: including agriculture, construction, civil and environmental engineering, landscaping and the OEM industry.

Advanced Drainage Systems
Matt Baragary
Tel: 612-756-3552
Email: matt.baragary@ads-pipe.com

ADS is the leader in world leader in Storm Water Solutions, including Dual Wall HDPE pipe too our full line of water quality products including the ADS Water Quality Unit, Flex Storm and Baysaver.

NASECA Silver Level Event Sponsors

Hay and Associates, Inc.
Nick Reget
Tel: 773-792-8510
Email: nreget@heyassoc.com

Hey and Associates offers expertise in solving water resource-related problems, focusing on watershed and stormwater planning and engineering, aquatic ecosystem restoration, and wetland delineation and management.
